

Why Employers Are Embracing Telehealth...

- ✓ Reduces health care costs while enhancing access and convenience to quality care
- ✓ Helps to decrease absenteeism and improve productivity by accommodating a range of workforce lifestyles
- ✓ Provides a broad scope of services –including behavioral health – when and where your employees are seeking care

...healthPERX and MDLIVE

Largest, integrated network of board certified doctors and licensed psychiatrists and therapists averaging 15 years of practice experience

Backed by technology used within the U.S. Department of Defense to ensure privacy and security

Third-party validated behavioral health outcomes and one of the top rated telehealth apps in 2015

Multiple modes of communication are available for consultation – employees chose video, phone or secure mobile app

Consistency of quality and health outcomes: 94% of MDLIVE patient medical issues are resolved

Proven marketing programs to efficiently and effectively enroll and engage employees
