

NAME THAT VOICE

Instructions:

Gather audio clips of various celebrities that participants might easily recognize their voices. Play each clip, one at a time, and ask participants to guess who it is.

Discussion:

Why do you think you were able to identify those voices? Why were some of the voices more difficult to place than others?

Do you recognize God's voice?

How do you know when God is speaking to you? Have you ever heard a still small voice inside you, that we sometimes call a 'gut feeling'? Have you ever recognized God's voice through friends and family who support and guide you? Have you ever heard God through a sermon or a teacher?

Where were you when you've heard God speak? What were you doing? What did it sound/look like? How did you know it was God?
